

ORAGON · BUSINESS PROFILE · 2026

We build what **actually** **ships.**

Custom AI tools and automated workflows for Filipino businesses.

AI AUTOMATION

CUSTOM SOFTWARE

PHILIPPINES

WHO WE ARE

An AI automation agency built for Filipino businesses.

A

AI-native

Built with AI in the loop from the first commit.

P

PH-first

PHP pricing, GCash + Maya + cards, Filipino-SMB UX.

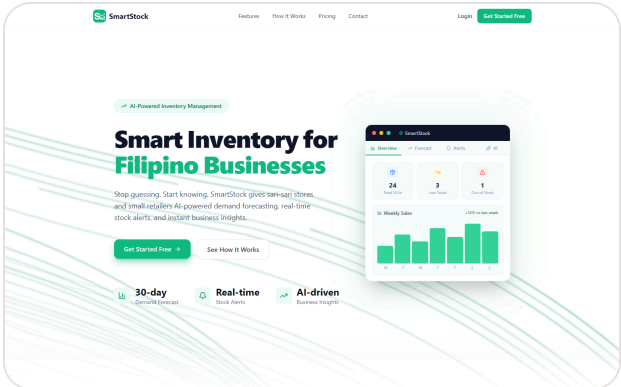

F

Founder-led

No agency handoffs. Same person scopes and ships.

WHAT WE'VE SHIPPED

Three live products.

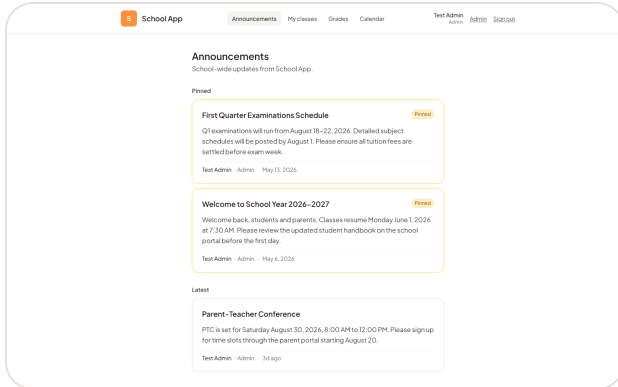

The image shows the SmartStock website interface. The main heading is "Smart Inventory for Filipino Businesses". Below it, there is a sub-heading "AI Powered Inventory Management" and a brief description: "Stop guessing. Start knowing. SmartStock gives you real-time stock alerts and instant business insights." There are three buttons: "Get Started Free", "See How It Works", and "30-day". At the bottom, there are three icons: "30-day", "Real-time", and "AI-driven".

SmartStock

AI inventory SaaS for Philippine micro-retail.

smartstockapp.online

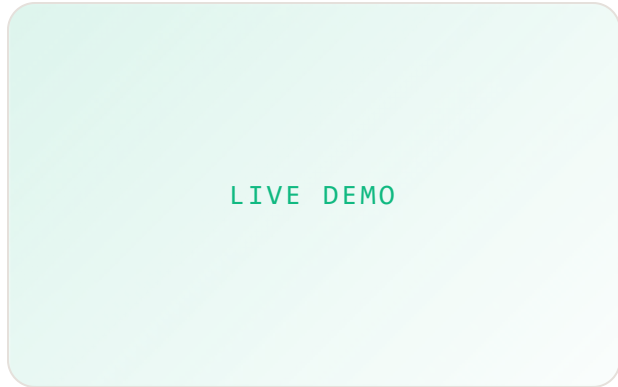

The image shows the School App interface. The main heading is "Announcements". Below it, there is a sub-heading "School-wide updates from School App." There are two announcements: "First Quarter Examinations Schedule" and "Welcome to School Year 2026-2027". At the bottom, there is a "Latest" section with "Parent-Teacher Conference".

School App

Multi-tenant school portal for parents, faculty, admins.

oragon-schools-app.vercel.app

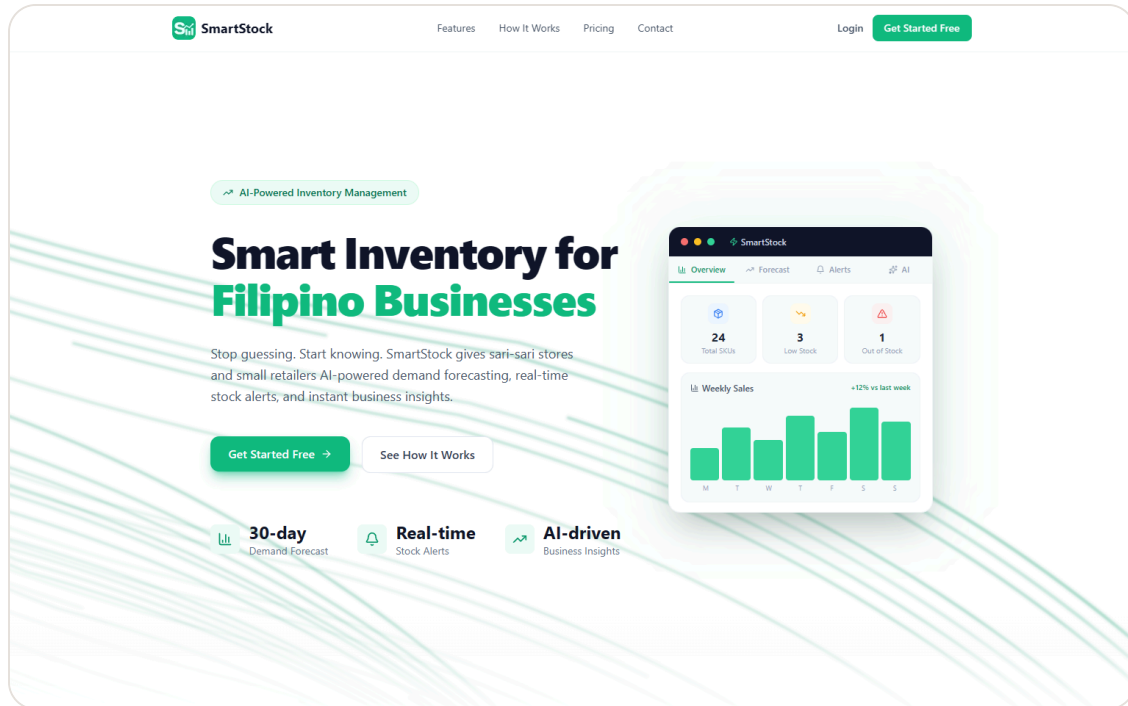

The image shows a placeholder for the Oragon Bookings product interface, which is a solid light green rectangle with the text "LIVE DEMO" in the center.

Oragon Bookings

Appointment + reminder automation for service businesses.

book.oragon.com.ph

AI inventory for micro-retail.

- Live PayMongo billing — card auto-renew + GCash and Maya monthly
- AI demand forecasting using Gemini and Prophet, 14-day history minimum
- Auto-downgrade for expired e-wallet users via Cloud Scheduler
- Multi-tenant on Cloud Run, every query scoped to user_id

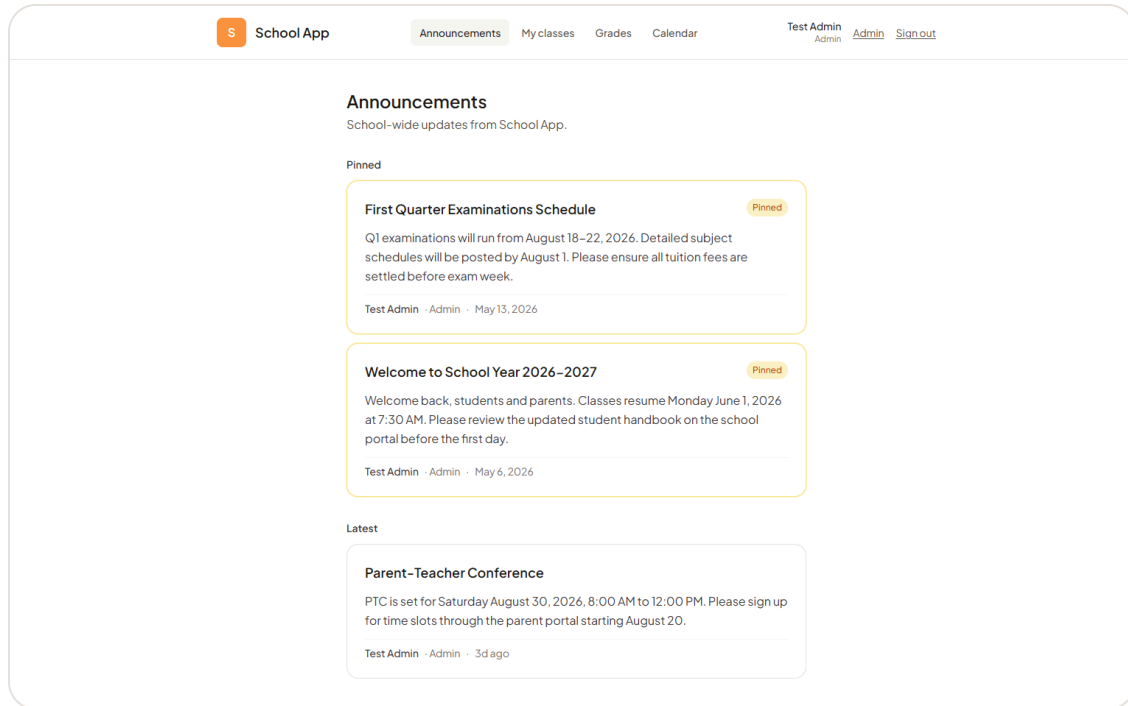

NEXT.JS 14

FASTAPI

NEON

GEMINI

Multi-tenant school portal.

- School-wide and per-class announcements with read receipts
- Grade entry plus bulk xlsx upload, parent-facing report views
- Calendar with ICS subscribe — one-tap Google Calendar sync
- Magic-link auth for parents and students, password for admin and faculty

NEXT.JS 16 SUPABASE TAILWIND V4 RESEND

Booking automation **for service businesses.**

LIVE DEMO

- Variable-time bookings with multi-booking-per-slot capacity
- Admin dashboard with reversible booking status
- Built for salons, clinics, restaurants, and cafés
- Branded per-tenant page via host-header routing

SUPABASE

TAILWIND

HOW WE WORK

Custom builds, **not subscriptions.**

Step one

Free discovery call

30 minutes. We find the highest-leverage thing software can fix.

Step two

Scoped SOW

Fixed price, fixed timeline, plain language.
No per-seat surprises.

Step three

Ship in weeks

2 to 6 weeks typical. Code, deployment, training, runbook.

If you can name it, **we can probably build it.**

F

Restaurants and cafés

- Online booking
- No-show fees
- Branded ordering

S

Salons and clinics

- Appointments
- Auto reminders
- Deposit collection

R

Retail and sari-sari

- AI forecasting
- Low-stock alerts
- Barcode labels

E

Schools

- Announcements
- Grade portals
- Parent calendar

PROCESS

Five steps. **First call to live system.**

01

Discovery

30 min, free

02

Scope

Fixed price + timeline

03

Build

2 to 6 weeks typical

04

Handoff

Training + runbook

05

Support

Optional retainer

PRICING

Per-project. **Not per-seat.**

Fixed project

One-time scope. One-time price. Shipped.

Project + retainer

Build, then ongoing monthly support and new features.

Discovery is free

30 minutes, no pitch deck attached.

PHP, not USD. The real number lands in your SOW.

LET'S BUILD SOMETHING

Ready to talk?

Pick a time. 30 minutes. No prep needed. We'll figure out the right fit on the call.
